PROCEEDINGS TO BE SECRET

PEACE CONFERENCE VOTES TO
LIMIT INFORMATION TO OF-
FICIAL BULLETINS.

By the Associated Press
PARIS, Jan. 16.—No one outside of the peace conference knows anything about the discussion which preceded the decision to keep the proceedings of the conference secret and to limit information divulged to official statements. This rule precludes American delegates, even Wilson, from discussing the formal announcements that are issued.

Official councils in London and Paris are not discussing peace terms tonight. The attention is occupied with the question of whether there will be a reconsideration of today's action.

Will Confer With Press.

PARIS, Jan. 16.—The Supreme Council today, after considering relations between the conference and press, decided to call a meeting at 5 o'clock this afternoon to be attended by members of the press and representatives of various nations in conference to an interchange of views on publicity methods.

POLAND AIDS LITHUANIA

NEW REPUBLIC APPEALS FOR
HELP AGAINST BOLSHIEVSKI
ENCROACHMENTS.

By the Associated Press
LONDON, Jan. 16.—Polish government has provisionally taken over the government of Lithuania to protect that country from the Bolsheviki, according to a telegram from Warsaw today. This action was taken on the request of the president of the Lithuanian republic.

FOCH CONFERS WITH GERMAN DELEGATES

By the Associated Press
PARIS, Jan. 16.—Marshal Foch, allied commander in chief, arrived at Treves Wednesday morning for a meeting with the German armistice delegates to discuss the armistice extension. He received Matthias Erzberger and General von Winterfeldt in his private car and a discussion over the armistice renewal began immediately but nothing has been published yet as to results. Likely pourparlers to be continued today and completed this evening.

WILL CALL OFF ARGENTINE STRIKE

By the Associated Press
BUENOS AIRES, Jan. 16.—At a conference with President Irigoyen yesterday labor leaders agreed to call off all strikes now in force with the exception of the harbor strike. The president promised he would do everything to meet the workmen's demands.

The casualty account shows between 850 and 1000 killed and between 3500 and 5000 wounded as the result of the disorders of the past week. Probably the final figures will be higher.

Liebknecht Captured.
BERLIN, Jan. 16.—Dr. Karl Liebknecht, Spartacan leader, has been captured, it was learned late last night, by a mounted rifle guard who arrived in Berlin yesterday.

U.S. BECOMES DRY NATION

NECESSARY THREE-FOURTHS OF
STATES RATIFY CONSTITU-
TIONAL AMENDMENT.

By the Associated Press
CHICAGO, Jan. 16.—The United States today completed the legislative process of voting itself dry. Word was received today that Nebraska, the thirty-sixth state, had ratified the prohibition amendment.

This amendment to the federal constitution prohibiting the sale and manufacture into beverage becomes effective one year after final ratification. Meanwhile the nation goes dry July 1 next by presidential proclamation as a war measure unless the president reconsiders it before that date.

PEACE SESSION OPENS SATURDAY

ANNOUNCEMENT OF CEREMO-
NIES ATTENDING ORGANI-
ZATION.

By the Associated Press
PARIS, Jan. 16.—Inauguration of the peace congress Saturday will be accompanied with ceremonies befitting the occasion. A detachment of troops will honor arriving delegates and Stephen Pichon, French foreign minister, will receive President Wilson at the head of the foreign ministry steps and accompany him to the room where the meeting will begin at 3 o'clock sharp. When all are seated President Poincare will take the presidential chair to make the opening address and declare the session formally open. Premier Clemenceau will take the chair as chief of the French delegation to request the assembly to elect officers including president, vice president and general secretary. Regulations for the congress will then be read.

CHEMICAL INDUSTRY WANTS PROTECTION

By the Associated Press
CHICAGO, Ill., Jan. 16.—Protection of American chemical industries, built up to greater efficiency during the war, from the cheaper made products of Europe, was asked today in a symposium at the annual meeting of the American Institute of Chemical Engineers. Dr. Grinnell Jones, chemist of the United States tariff commission, discussed that body's recommendations concerning dyes and coal tar chemicals.

Maximilian Toch, New York, chairman of the committee on maintenance and preservation of the chemical industries, urged these steps:
A reasonable tariff.
An amendment to the Sherman act to permit co-operation of competitors.

A law to hold in bond foreign materials whose dumping here might cause disruption to American trade.
Requirement of sworn statements by foreign shippers as to the origin of all materials, to prevent importations from enemy countries.
Action to prevent foreign combinations which might act in restraint of American trade, and prohibition of importations from foreign competitors selling goods below American manufactured costs.

Referring to the third of President Wilson's fourteen peace points, which favored removal of "economic barriers," Mr. Toch said:
"I doubt very much whether the real interpretation of this point has been made, and if the president meant that there should be free trade among the League of Nations, it will cause a hardship to those countries, coincidentally, where freight and the cost of raw materials is higher than in other countries."

Mr. Toch declared that "anybody who imagines Germany is commercially dead is laboring under a very great misapprehension." He said that Azo Scarlet dyes, landed in America before the war, cost between 15 and 20 cents a pound, and that its manufacture in America today costs 85 cents a pound. He expressed the belief that Germany or Switzerland could ship it here at less than the cost of manufacture in this country. He said more than 2,000,000 men and women are employed, directly and indirectly, in the chemical industries of the United States.

BABY DIES WHEN BEAN LODGES IN ITS THROAT

LAWTON, Jan. 15.—John Coryell, the 1-year-old son of Mr. and Mrs. Joe Coryell, died today in the office of a physician as the result of swallowing a bean. The bean lodged in the youngster's throat and swelled, causing strangulation. The efforts of physicians to remove the bean were successful, but too late to save the child's life.

ATOKA BOYS WILL PLAY ADA HIGH.

A fast game of basketball is scheduled for Friday evening at 7:30 at the high school gymnasium. The contending teams are the Atoka high school and Ada high school boys. Both sides are eager for the fray and the game promises to be one that will interest all lovers of sport.

Let a Want Ad get it for you.

RODDIE TRIAL IN PROGRESS

JURY COMPLETED WEDNESDAY
EVENING—TESTIMONY BE-
ING TAKEN.

The jury in the case of R. M. Roddie, charged with killing Percy Barton, October 3 was completed about 9:30 Wednesday evening after two days and a half of hard work. The prominence of the parties involved and the widespread interest in the case made the securing of a jury rather difficult. Following is the personnel of the jury: J. A. Motes, H. S. Derryberry, J. H. Taylor, J. B. Self, B. F. Craig, B. D. Nichols, Lee Nettles, Charley Laseman, J. E. Crews, James Whitaker, Lee Collins, J. E. Crowder.

The trial opened this morning with an imposing array of counsel on both sides. The county attorney's office is assisted by J. F. McKeel and W. W. Pryor of Wewoka. The defense is represented by Robert Wimbish, I. M. King, B. C. King and W. F. Schulte.

Sparings began during the opening statements, both beginning with the fight in the court room between Judge C. O. Barton, father of the deceased, and R. M. Roddie, the defendant, and each objecting to the

other going into the details of this trouble. Judge Dudley held that they might mention the fight as a means of throwing light on what followed but ruled that the details and who was to blame in the affair had nothing to do with the matter, since that was not the question at issue.

The statements indicated that there will be quite a bit of conflicting testimony. The state will endeavor to prove that there was reason to believe that Roddie was looking for young Barton and the defense try to establish that he was looking for Roddie. At the preliminary hearing eye witnesses of the tragedy disagreed materially on the beginning of the trouble when the shooting took place and the statements indicated that the same will be true in this trial, the testimony of some being in favor of Barton and some for Roddie. The plea of defendant is self defense, he having been told the Bartons were looking for him threatening trouble.

The state before noon had put M. E. Parr, Dr. S. P. Ross, Bob and Mack Dickerson on the stand. Dr. Ross testified to having been summoned by deceased to go to his father's office to give his bruises, received in the difficulty in the court room, attention, and to the nature of the wounds inflicted on deceased by the bullets.

The others were eye witnesses of the shooting and told of the meeting between the two in front of Rolow's store.

Notice Masons.

Call meeting of A. F. & A. M. lodge this evening 7 o'clock. Work in Master's degree. Visiting members invited to attend.

WAR SERVICE RECORD KEPT FOR HISTORY

OKLAHOMA CITY, Okla., Jan. 16. (Special)—Oklahoma's fame for unfaltering support of the flag while the country was engaged in hostilities with the Central Powers of Europe will be perpetuated and memorial handed down to posterity in the form of a war service record which is no win course of preparation. The activities of all war bodies, the specific work of county councils of defense and other data pertaining to the winning of the Great War will be contained in the coming and final issue of the "Sooners in the War," the official publication of the state council. This material will later be assembled in pamphlet form to become a matter of record.

Many county councils have reported their operations for publication in this record and this, in conjunction with reports of food, fuel and like administrations, will demonstrate the almost hundred percent loyalty of the Sooner State in the national crisis.

Washington reports that defense councils in Oklahoma have been as efficiently and completely organized as those of any state in the union and that their record of achievement stands second to none.

FEW BANK FAILURES DURING PAST YEAR

By the Associated Press

KANSAS CITY, Mo., Jan. 16.—Fewer bank failures occurred in the territory embraced in the tenth federal reserve district, in 1918, than in any years since 1870, figures compiled by the federal reserve district bank show. Failures for the year just closed showed a reduction of 43.2 per cent over the failures for 1917. From the same source the information is given that, despite the fact that this district bought liberty bonds of the two issues offered in the year (the Third and Fourth) to the total of \$509,044,250, clearings of the member banks for the year gained over 1917, \$4,068,250,612, or 31.4 per cent.

Per capita wealth for the component states of the district has been compiled only for Colorado. Figures for that state show a per capita sum of \$1,276.39.

Sales of bonds of the Third loan totalled \$204,092,800 on the quota of \$130,000,000. The total for the Fourth loan was \$295,951,450 against a quota of \$260,000,000. Of the Third loan, 16 per cent of the population of the district bought. The percentage for the Fourth loan increased to 17.6.

Actual sales of War Savings Stamps, by the bank and its immediately related organizations—not including those placed in so-called "second class" agencies, were \$35,921,065. Thrift stamps in the number of 3,031,028, with an aggregate value of \$757,757, were sold.

Certificates of indebtedness, anticipatory of the Third Loan, to the extent of \$128,424,500, against an assigned quota of \$116,000,000, were taken by the banks of the district and for the Fourth loan, a total of \$176,866,000 against an assigned quota of \$164,000,000.

As showing that the bonds were taken more widely in small amounts than in large ones, the compilation shows that Third bonds to the total of \$179,027,650 were taken in sums of \$50 to \$10,000, while subscribers in sums of \$200,050 took only \$2,305,000. Of the Fourth bonds, those in the former classification took \$254,611,600, while those in the last class took only \$5,944,000.

PEARL DIVERS OF SOUTH PACIFIC

By the Associated Press

PAPEETE, Island of Tahiti, Dec. 30.—(Correspondence of the Associated Press)—The Paumotu Islands—sometimes called "gold mine" of the eastern Pacific—present a weird and picturesque scene during the season for pearl fishing. From August on, come the natives from the surrounding islands to dive for the pearls in the calm waters of the lagoon thrown open for the purpose. Within the narrow strip of sand which surrounds the fishing ground are huddled three thousand or more, in a mushroom city, sheltered beneath corrugated iron or thatched roof huts. It is a motley company.

There is the Paumotu diver, a bronzed sea-god—who, with his ancestors, have been for ages, masters of the deep and conquerors of the shark in his own native element. He is the center of solicitude for the buyer and trader. He is the indispensable object of the moving picture man who has hastily built his theater of corrugated iron where he dispenses amusement at metropolitan prices. It is the diver who will spend his earnings riding in the wheezy motor car which the owner operates along a half mile of hard beach. It is his earnings which attract a host of others.

In his habits of spending his earnings the Paumotu diver is much like the American prospector and miner of the days of gold strikes and boom mining camps. In the days of his prosperity nothing is too good for him. He buys the choicest of foods and tinned goods. He is proud of the appearance of his women folk and lavishes on them silks, satins, laces, Chinese shawls, high heeled shoes, picture hats and corsets, the last a recent discovery. All of these things the trader thoughtfully has provided.

Sunday is an Easter parade and a performance at the picture theater like an evening at the opera. In no "golden horse-shoe" in the world are more observant or critical eyes, and woe betide the Paumotu belle who fancies she can attend two of these functions clad in the same costume without being subjected to scornful comment.

A good diver during the season will bring up several tons of shells which recompense him well. The diver takes no thought for the morrow. He and his wife bask in affluence and enjoyment. He spends as fast as he earns. When December comes and the fishing season is over they return to their little toil and the simple life with nothing remaining for his months of toil but some soiled finery, the memory of a good time and the anticipation of a repetition of their pleasure the next year.

AS IT WAS.

Life in an apartment house must be great. All you have to do is to listen to the woes and troubles of the person across the hall.

The word "chicken" has been stretched until it means everything from a prett ygirl to a fowl. Or vice versa.

One of the favorite sports of the day is to go joy riding. But sometimes something comes along and takes the joy out of that. Punctures, mud, etc.

Some people harp about the contaminated water in the mains, but they will drink water out of a rain barrel that has been around the house for months.

There are some stoves that should be used as fireless cookers. The fireless part is the main feature.

The largest state in Russia is Ignorance.

A Divine Melody.

The world's history is a divine poem of which the history of every nation is a canto and of every man a word. Its strains have been pealing along down the centuries, and, though there have been mingled the discords of roaring cannon and dying man, yet to the Christian philosopher and historian—the humble listener—there has been a divine melody running through the song which speaks of hope and halcyon days to come. History is but the unrolled scroll of prophecy.—James A. Garfield.

Paper Conservation Not New.

The Chinese have an ancient custom, old when Europe was young, and based upon their respect for learning, observes Robert L. McElroy of the National Security League. They never allow paper which contains written symbols to litter the streets or fields. Chinese mothers train their children to deposit all such scraps of paper in the picturesque little buildings which dot the temple gardens. "The wrath of heaven falls upon those who disregard this duty" is a lesson carried in each tiny Chinese heart.

Don't Keep Friends Waiting.

Be prompt in keeping social engagements. The man or woman who is invariably late soon merits disrespect for his own convenience and becomes unpopular with his friends. No excuse is compensation to a friend for having to wait for half an hour after the appointed meeting time. In making appointments allow a little time for possible delays—then appear promptly at the hour set.—Biddy Bye.

SOUTH RUSSIANS AGAINST BOLSHEVIKI

LONDON, Dec. 30.—(Correspondence of The Associated Press)—It is reported here that conferences soon will be held in the south of Russia in which will participate representatives of the various Entente powers, representatives of the Ukraine government, the Don Cossacks, the Orskburg Cossacks and the provisional governments of Armenia and Georgia.

Their purpose will be to reach an understanding as to the creation of a government in south Russia, the caucuses and the Trans-caucasus, with which the Entente powers can co-operate in restoring normal economic, social and political conditions.

Although the Bolsheviks have many followers throughout the Ukraine, they never were predominant, even in the shipbuilding cities of the Black Sea. In the Don region and in the caucuses and Trans-Caucasus their hold has been even slighter. Cossacks of all sorts have been enemies of the Bolsheviks, as they are all landholders and unalterably opposed to the domination of their districts by outsiders.

Many British naval and military officers, as well as civil officials have left London for the Black Sea district since the signing of the armistice and commercial interests are also sending representatives to look the situation over preparatory to opening up the extensive oil and grain districts.

Siberia, the Ukraine, Finland and the new government at Archangel shut Bolshevik Russia off entirely from its ports, and the unfriendliness of the government in all these sections to the Moscow government under Lenin is daily increasing the strain on soviet Russia. The new governments in these various sections which have refused to accept Bolshevism are not as stable as the Entente powers might wish. While they all express their desire to become a part of Russia should federation become possible under an acceptable central government, the political differences in all the four sections named have been keen, and party quarrels and the ambition of rival leaders have frequently exceeded patriotism in the struggle for power.

Only about 40,000,000 inhabitants now remain under Bolshevik control. The total population of the Russian empire as it existed before the revolution was estimated at 180,000,000. The great majority of this population is in the portion of Russia south of Bolshevik rule, which is far the richest and most populous portion of the former empire.

Consequently, developments in South Russia are watched with great eagerness by military and naval men and diplomats alike. A stable central government established at Kiev, Odessa or Sevastopol and recognized by the Entente powers would control the great majority of Russia's natural resources, especially if it gained control of the Volga and established communication with the mineral deposits of the Urals, and the grain fields of Siberia.

Such a government would naturally be the key to Russia's political and economic future. Northern Russia is sterile in contrast with the south. Its lands are poor. Moscow and Petrograd industries depend entirely upon distant centers for their raw products. The factories and industrial population of North Russia, or soviet Russia, are entirely within districts which cannot feed themselves. And therein lies the great inherent weakness of the Russian Bolshevik movement. It is based on theories which are repugnant to the districts which produce the food-stuffs and can starve soviet Russia at a sign of their disapproval.

Avoid irregularity in the bowel movements, it leads to chronic constipation; a condition that poisons the blood and breeds disease. Prickly Ash Bitters restores regularly and puts the system into order. Price \$1.25 per bottle.—Gwin & Mays Drug Co., Special Agents.

STEEDMAN.

It has been some time since I was with you, sickness being the reason. This little town and vicinity have been hard hit with the flu, in some instances nearly taking the whole family.

On the 3rd inst. Robt. Hill died and again the death angel came on the 8th and claimed the little daughter Audria, and again on the 10th, and claimed his mother, Mrs. Olive Hill. Robert Hill leaves a wife and babe nine months old.

On the 10th inst. death claimed Mrs. Hattie Edwards, wife of Jess Edwards and at this writing I can count over 75 down with the flu within four miles of Steedman. Our Dr. Standridge is in bed with the flu and our school is running low on account of the sickness. Mrs. Edwards leaves several small children and husband.

There have been many changes around here this fall and winter. The old reliable pioneer merchant, W. L. Odum, has bought the Moody store building and will soon open up the largest stock of merchandise ever in Steedman.

Our good road worker has about got the roads in and out of here so one can't travel them at all on account of the rain on the fresh worked places of the road.

W. S. Hokit will soon move into the Wilson store building. The big hearted miller, Frank Cozad, has got his corn mill repaired and is now grinding so bring your corn.

Several of the soldier boys are home to stay, being discharged. —PIONEER.

Ancients Got Undeserved Credit.
Asphaltum, gathered from the fountain of Is on the banks of the Euphrates, was used in building the wall of Babylon. Much of the talk about the skill of the ancients and their lost arts is all a myth. They should be given full credit for what they did, but such walls as those of Babylon and such structures as the Pyramids could be built far more easily and quickly at the present time. Now, however people have more important work to do, and greater things to achieve.

Learn Egyptian Custom.
The law of the Egyptians in respect to debts and creditors was to the effect that no man was permitted to bury money without paying to the creditor the dead body of his father, or nearest ancestor, which every man must enshrine in his house. It was thought infamous and impious not to redeem so precious a pledge, and he who died without having discharged that duty was deprived of the customary honors of burial.

Adjutant General Resigns.
OKLAHOMA CITY, Jan. 15.—Resignation of Adjutant General Gipson was tendered to Governor Robertson today. A successor will be named within the next few days. General Gipson will probably retire to practice law.

PRESIDENT-ELECT OF BRAZIL DEAD
By the Associated Press
RIO JANEIRO, Brazil, Jan. 16.—Dr. Rodrigues Alves, president-elect of Brazil, died today. He had been critically ill for some time.

The Razor in Civilization.
Busts of the Caesars show them to have been clean-shaven. Men in the eighteenth century relied still further on the barber's art, for they shaved their heads as well. Hogarth has painted a head of this period who by some chance had his wig removed, which gives him the look of an elderly baby. The uncouth appearance of the barbarians, which shocked the Romans, was due a good deal to the neglect of these wild men to dress their hair.

Daily Health Talks

GOING BACK TO NATURE.

BY DR. W. LUCAS.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

Don't forget the boys basketball game in the high school auditorium Friday night at 7:30. Atoka vs. Ada high school. 1-16-21

GALEY.

Hello, here comes Galey after some delay glowing with peace in the year of 1919, and priding himself on the success of each war campaign.

Every one is changing around settling down for a new year's work. We wish them all success.

Emmet Light has moved to Summers Chapel. Mr. Light was clerk of our school board, and a great builder in the community.

John Walls sold his home place and moved to Roff. We regret the loss of him, his home being made here for so long. Quin Bevers took possession of the place.

Mrs. Barnes entertained quite a crowd of young folks Xmas eve and Christmas day with a Xmas tree and dinner, also plenty of good music and dancing. Those present were: Miss Elma Cravatt from Pisk, Okla., Miss Audra Bray from Wirt, Okla., Misses Jewell and Grace Gray and Bertha Bray; Claude Barnes from Camp Pike, Ark., Clyde and Gaither Bray, Claude, Arlie and Roy Gray, Ardel Hays and Newton Wall. All enjoyed themselves, but sorry to say all got the flu off the Xmas tree. Kodaking was also enjoyed.

Mrs. Buckholtz spent Xmas with her sister at Roff. Mr. Gray and Mr. Bray are some better from the flu, except Mrs. Bray who isn't improving fast.

Tony Cruise, Albert Ward, Willie Smith and Claude Barnes returned from Camps with an honorable discharge. We wish them success to begin their civilian life with again.

The death angel visited the home of Mr. Maurice Clark and took away his darling wife, Rose. Deceased is the daughter of Mr. A. J. Hughes. Mrs. Clark was born at Bebee, 1896. She died at the age of 23 at the bloom of life. She was loved by all who knew her. She has many relatives and a host of friends to mourn her death. She departed this life Jan. 8, 1919, and was laid to rest in the McGee cemetery. Her husband has the heartfelt sympathy of all. We miss the voice of one we love. A precious form has passed away. To join the angel throne above, In realms of endless day. There let the way appear. Steps unto Heaven, all that thou sendest me.

In mercy given angels to beckon me, Nearer my God to Thee, Nearer to Thee. Our beloved Rosa A. Clark, Stratford, Okla., in sacra remembrance. Mr. Monroe Beauford and sister Bessie, from Maysville, Okla., are visiting their cousins, Mr. and Mrs. James Blevens.

Mr. Clyde Bray returned home from Sayre where he was working in a garage.

Word was received that Miss Winnie Willis has taken up private work in nursing at Ada. She took her training at Chickasha, Okla. She has only been at Ada for a short time but is winning out with her work.

Sergeant Rufus Willis has returned from France, having been gassed. He spent Xmas holidays at Mansfield, Ark., and returned from there to the hospital.

We welcome James Bray and family back to Galey once more. They will make their home here. Mr. Bray will take up his father's work in the shop. The shop is now open for general work.

Miss Elma Cravatt returned to school after a two weeks vacation at her grandmother's, Mrs. Barnes. She will complete her work at the Indian Female academy at Muskogee this term.

Mr. Higgs received a death message from Wewoka stating that his mother had died. He has our heartfelt sympathy.

Mrs. Bertha Bray will take up the assistant work at the Chism school next week.

Mr. Claude Barnes returned to his ranch at Hartshorne. His mother accompanied him. She will spend several weeks with her daughters there.

Miss Iris Hughes spent the week with her brother Mr. Edd Hughes at Bebee.

Our school is progressing nicely with Mrs. Buckholtz, principal, and Miss Sloan assistant.

Rev. Osalo's services which were to be held at the church house were discontinued at the notice of Mrs. Tucker's death.

Bud Blevens is seriously ill at this writing.

Miss Gladys Bray has returned from Bebee, Okla., where she has spent the past month with her aunt, Mrs. Alice Summers.

We have a severe case of the flu at Mrs. Buckholtz, her little son Bruce.

Clyde Bray is now ready to take up general garage work. Call FK-552.

Sidney Parker is out to visit his sister, Mrs. Beatty on an indefinite furlough.

Come on Bebee with your news. As the taps are sounding for "chow" we must discontinue our writing.

PVT. PEAT & PERSHING.

GERMAN PRISONERS MUST DO RECONSTRUCTION WORK

PARIS, Tuesday, Jan. 14.—The Cabinet decided today that German war prisoners henceforth should be employed in reconstruction work in the liberated districts. The measures adopted provide that a minimum of 200,000 will be working in the devastated regions by March 20.

Preparedness applies to the human body as well as to nations. A bottle of Prickly Ash Bitters on the shelf at home is the best and cheapest form of preparedness for indigestion, constipation and kidney troubles. It is the dose taken in time that wards off sickness and saves money. Price \$1.25 per bottle.—Gwin & Mays Drug Co., Special Agents.

Take Care. of that picture by having C. A. Cummins to frame it for you. 1-15-21

12 PER CENT WHITE POPULATION IN ARMY

By the Associated Press

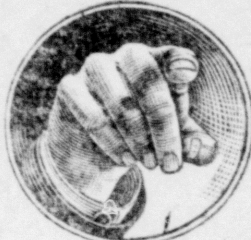

JUNEAU, Alaska, Dec. 20.—(By Mail)—Twelve per cent of Alaska's total white population is, or has been, in the country's war service, according to an estimate based on official registration figures made by Captain J. J. Finnegan, executive draft officer.

During the operation of the selective service law, 6,672 Alaskans registered for military service. Men between the ages of 21 and 31 numbered 2,525 who either enlisted or were inducted into the service. This figure alone, said Captain Finnegan, would represent 10 per cent of the territory's entire white population. In addition, several hundred more men under or over those ages volunteered. Orders for 87 more inductions, already sent out, were cancelled because of the signing of the armistice.

Division by classes of Alaska's registration under the selective service act was: Class one, 3,207; class two, 147; class three 88; class four 714; class five 2,500. Thirteen registrations were cancelled.

TWO MEMBERS OF BOARD OF AFFAIRS CONFIRMED

OKLAHOMA CITY, Ok., Jan. 16. The Senate this afternoon confirmed the appointments of George Clark of Chandler and J. W. Kayser of Chickasha as members of the State Board of Affairs. Clark's appointment was announced yesterday, but Kayser was not appointed until today. Mr. Clark will be the secretary member of the board, with Kayser as the republican member. He takes the place of A. N. Wilcox of Durant and Clark the place of O. Johnson of Durant.

JANUARY 17 NATIONAL WAR SAVINGS DAY.

MUSKOGEE, Okla., Jan. 16.—The new War Savings Stamps are decorated with the head of Benjamin Franklin, apostle of thrift. The slogan during the year 1919 will be "Save and Succeed."

Franklin's birthday, January 17th, will be observed as National War Savings Day. This will be the first special War Savings Day of the 1919 campaign. The real purpose of the War Savings campaign is to instill the idea of thrift into the mind of every man, woman and child in the country and it is hoped by the Committee that all who have not already purchased a five new issue will make a start on this day.

It is expected that due publicity, will be given the movement in the schools and through the War Savings Societies in the state.

Let a Want Ad get it for you.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is enclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney

action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. At the first sign that your kidneys are not working properly, go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

FRANCE HAS GREAT LEADERS

Marshal of France Is Wonderful Title and Most of Those Who Have Held Baton Have Been Wonderful Men.

Paris.—What title in all this world calls up such heroic memories as that of marshal of France? It is a wonderful title and most of those who have held the baton were more than wonderful men. In every other army a field marshal is a grade, but the French army has no field marshal; it has simply the title of marshal of France. The regulations of the French army prescribe that the title of "maréchal de France" is not a grade, but an honor. This expresses all military excellence in a general, who does not outrank his colleagues, but who by some deed or deeds has brought particular distinction on himself or his armies.

The first battle of the Marne was the reason why General Joffre became a "maréchal de France." Today there are only three "maréchaux" in all France—Joffre, Foch and Pétain. The marvelous strategy of Foch stands out more clearly every day. Napoleon had many "maréchaux," all of them prodigies of valor and some of genius—Massena, Lannes, Soult, Murat, Ney and others. The emperor made them either dukes or princes or both, and sometimes kings. But with all their glory I doubt if any one of them has rendered such signal service to their country—certainly not to humanity—as have Joffre and Foch.

Gallieni's Great Feat.

General Gallieni, the former governor of Paris, would have been made a "maréchal" had he only lived long enough to receive the honor due him. It would be a beautiful idea if the government of the French republic credited him a marshal even now, and inscribed on his tomb: "Gallieni died in the service of his country. General de Division—Maréchal de France." It might not do the general any good, but it would please the army and the entire country, while it would render justice to an immortal name and would be a fitting tribute to a great and good soldier, though whether they call him general or marshal or drum major makes little difference. Gallieni's name rests secure in his 30-word proclamation and in safekeeping of 30,000,000 free Frenchmen, for whom he did more than any other one man to retain their liberty at a critical time. He will live forever in the heart of the French "poulu." He was too good a soldier to ask anything better than that.

Joffre Won at the Marne.

Marshals Joffre and Foch, as the world knows, are also great soldiers. For three long years Joffre withstood the fearful onslaught. He never murmured, though he had terrible difficulties to endure. He husbanded his small armies while we prepared ours. When his task was done and the battle of the Marne gained, Joffre retired from activity with the great honor he had hardily won.

Foch has always been victorious. He has served his country with love, with ardor and felicity. To his fine character he adds great ability. He has been preceded by a list of names which have illuminated the history of France and mankind during the centuries. He commanded the greatest armies ever commanded by one man. He has the respect of those armies; he has even forced the enemy to respect him, and then sent him down to complete defeat. What more could man do. He has the title of "maréchal de France" fairly won. Remember "it is not a grade, but an honor." It is a great thing to be "maréchal de France."

Hat Check Pirate Is Put in "Please" Class

New York.—The hat-check pirate in Gotham has been relegated to the "please" class rather than that of "pay me."

District Attorney Swann has decreed that the practice of tipping hat-check boys or girls is not compulsory—in fact, should be classed as "nonessential."

The opinion followed the complaint of a cabaret customer "whose \$3 hat has already cost him over \$14" and who was called a "piker" by a check boy when he refused to check his hat and coat.

'Twas Ever Thus.

St. Louis, Mo.—When two "nice" strangers with whom Thomas F. Keifer, Beardstown, Ill., strolled here, started matching pennies he became interested. When they matched quarters his temperature rose. When the two matched dollars he could not resist the temptation and he got in the game. Later he told the police of his loss—\$100 in money and a diamond valued at \$150.

LOCAL AND PERSONAL

Get it at Gwin & Mays. Have your Photo made at West's. Comforts and Blankets at Smith's. Forty-cent plate lunch.—Schreiber's John Skinner, who has been very low with pneumonia, is improving very fast.

Dr. Dawson, who has been suffering for the last three weeks with blood poisoning, is now able to do some work.

Fred Orr, has been suffering from an attack of tonsillitis for past few days, but is reported much better today.

Favorable reports came today from the various members of the News force suffering from attacks of the flu, but none was able to be back at his post.

Bring in that picture and let me frame it for you.—C. A. Cummins. 1-15-1t

The police made a raid on West 6th street Wednesday night about 11:30, capturing thirteen occupants of a room where a game was going on. All pleaded guilty and were assessed \$10.75 each by Mayor Kitchens.

Dubert Roquemore, one of the boys at the high school, drank a small quantity of a mixture of wood alcohol and chloroform this morning at the alcohol school building. As a result of quick attention, it is reported that not enough of the poison was taken into the system to have caused death, even if it had not been removed.

P. B. Chestnut died Wednesday afternoon at his home on East 12th, his death being due to heart trouble. The funeral services will be held this afternoon. He is survived by his wife and eight children. The family moved here from Anadarko about a week ago.

Not the Road to Wealth.

"Time is money," said Uncle Eben, "but jes' de same de man dat finesses his wif a lot o' time on his hand, has made a pore investment."

Card of Thanks.

We desire to thank our neighbors and friends for the kindness shown us during the illness and death of our little babe. Also for the floral offerings.

Mr. and Mrs. Phagan Brown, Father and Mother; Mr. and Mrs. John Snead and Family; Mr. and Mrs. John Brown and Family.

For the ailments common among women, such as sick headache, backache, heartburn, nervous weakness and constipation, Prickly Ash Bitters is a splendid remedy. It purifies the bowels, tones the stomach, clears the complexion, sweetens the breath, restores energy and cheerfulness. Price \$1.25 per Bottle.—Gwin & Mays, Special Agents.

HOUSE BURNS NORTH OF CITY LIMITS.

Wednesday night about 8 o'clock the fire department was called over in the Capitol Hill addition. The house that was afire was just outside the city limits and out of reach of the mains. It was on the Perry land and at the time of the fire it was not occupied. The cause of the fire is unknown.

FOOD ADMINISTRATION WILL SELL RESERVE STOCK WHEAT

NEW YORK, Jan. 16.—The Food Administration Grain Corporation announced tonight that it soon will formulate a policy of disposing of a portion of its reserve stock of wheat to the mills in order that prices being asked for flour and mill feeds may not be increased unduly because of excessive premiums being paid by mills for wheat in certain portions of the United States, especially in the Southwest and Middle West.
